The Chartered Financial Analyst (CFA) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 154,000 CFA charter holders working in 165 countries. To earn the CFA charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA charter holders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA charterholders—often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 83,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must currently satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 6 hours, includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must currently complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Item 3 Disciplinary Information

None.

Item 4 Other Business Activities

- A. The supervised person is not actively engaged in any other investment-related businesses or occupations.
- B. The supervised person is not actively engaged in any non-investment-related business or occupation for compensation.

Item 5 Additional Compensation

Mr. Fitzgerald's annual compensation is based, in part, on the amount of assets under management that Mr. Fitzgerald introduces to the Registrant. Accordingly, Mr. Fitzgerald has a conflict of interest for recommending the Registrant to clients for investment advisory services, as the recommendation could be made on the basis of compensation to be received, rather than on a client or prospective client's best interests.

Item 6 Supervision

The Registrant provides investment advisory and supervisory services in accordance with the Registrant's policies and procedures manual. The primary purpose of the Registrant's Rule 206(4)-7 policies and procedures is to comply with the supervision requirements of Section 203(e)(6) of the Investment Adviser's Act ("*Act*"). The Registrant's Chief Compliance Officer, LeAnn Mitchell, is primarily responsible for the implementation of the Registrant's policies and procedures and overseeing the activities of the Registrant's supervised persons. Should an employee, independent contractor, investment adviser representative, or solicitor of the Registrant have any questions regarding the applicability/relevance of the *Act*, the Rules thereunder, any section thereof, or any section of the policies and procedures, he/she should address those questions with the Chief Compliance Officer. Should a client have any questions regarding the Registrant's supervision or compliance practices, please contact Ms. Mitchell (804) 955-1600.
